EGOVRTD2020 VILNIUS WORKSHOP: FUTURE SCENARIOS OF EGOVERNMENT 2020

22 May 2006

Dear NAME,

We are pleased to invite you for the scenario building workshop "eGovRTD2020 Vilnius Workshop: Future scenarios of eGovernment 2020" and deliver presentation on... The workshop will be held in Mykolas Romeris University, Ateities st. 20, Vilnius (Department of Informatics and Statistics, 404 audience), 26 May 2006. We will start at 1:00 pm and the workshop will be finished at 4:30 pm. The detailed program and the list of invited participants are enclosed.

The E-government 2020 research program aims at the design of a roadmap to e-government Research in 2020. eGovRTD2020 Vilnius Workshop is one of the first round regional workshops that are organized to generate the visions of eGovernment2020. This workshop is jointly organized by Mykolas Romeris University, University of Koblenz and TU Delft, and will include local experts and members of the project support group.

The workshop will help to become familiar with the trends and developments collected in the first activity and also enable to interact with visionary participants. The results of this scenario-development workshop, the roadmapping workshop and the whole project will be disseminated to all the participants involved in this project.

Please let us know if you are not able to attend the workshop or if you decide to send a delegate on your behalf.

Yours sincerely,

Prof. Dr. Rimantas Petrauskas
Head of Dept. Informatics and Statistics
Mykolas Romeris University
